UZZAL HOSSAIN

SENIOR FRONTEND-FOCUSED FULL-STACK DEVELOPER

Dhaka, Bangladesh | uzzalcse70@gmail.com | linkedin.com/in/uzzal70 | github.com/uzzal70

PROFESSIONAL SUMMARY

Senior Frontend-Focused Full-Stack Developer with 5+ years of commercial experience architecting resilient, user-centric enterprise web applications, high-concurrency B2B travel portals, and client-side document processing engines. Specialised in modern React 18, Next.js App Router, TypeScript, Material UI v5, and Redux Toolkit, complemented by practical full-stack working knowledge of Node.js, NestJS REST APIs, and PostgreSQL.

CORE TECHNICAL SKILLS

Frontend Architecture: React.js (18+), Next.js (App Router), TypeScript, JavaScript (ES6+), HTML5, CSS3, Material UI v5
State & API Integration: Redux Toolkit, RTK Query, React Context, Custom Hooks, Axios Interceptors, REST APIs, Formik, Yup
Backend & Database: Node.js, NestJS Modules, Express.js, PostgreSQL, JWT Authentication & Refresh Tokens, RBAC Guards
Performance & Document: Tesseract.js OCR, Web Workers, Canvas Image Processing, @react-pdf/renderer, Vite, Git, Postman

PROFESSIONAL EXPERIENCE

Senior Frontend Developer | Travel Tech Innovations Ltd. 2023 - Present

Dhaka, Bangladesh (Hybrid) -- Leading frontend architecture for flagship B2B platforms: TripFindy & Ticket Lagbe

- Architected scalable multi-tenant React/Next.js frontend supporting white-label agency branding and custom commission rules.
- Optimized high-concurrency flight search filters on 800+ multi-leg itineraries, cutting UI filter response from 350ms to <16ms.
- Built client-side vector airline e-ticket and invoice generator using @react-pdf, eliminating server rendering bottlenecks.
- Standardised atomic component library with Material UI v5 & TypeScript, establishing design tokens and WCAG AA compliance.
- Collaborated closely with backend engineers on NestJS REST API schemas for live GDS seat availability and PNR issuance.

Frontend Software Engineer | Enterprise Solutions & Softwares 2021 - 2023

Dhaka, Bangladesh -- High-performance enterprise portals, administrative dashboards, and document workflows

- Developed scalable single-page web applications and internal administrative dashboards using React.js and modern CSS.
- Built complex form validation workflows and document preview modules for regulatory agency trade license verifications.
- Connected frontend clients to Node.js/Express REST APIs, integrating JWT authentication and refresh token rotation.
- Authored reusable data table components supporting server-side sorting, column visibility toggles, and CSV transaction exports.

Junior Web Developer | Digital Code Craft 2020 - 2021

Dhaka, Bangladesh -- Responsive web applications and frontend feature delivery

- Translated designer Figma mockups into pixel-accurate HTML5, CSS3, and modern JavaScript components.
- Implemented client-side form validations, modal systems, and responsive layouts across cross-browser environments.
- Delivered 10+ responsive business web portals on schedule, maintaining clean code quality and mobile responsiveness.

KEY PRODUCTION PLATFORMS & CASE STUDIES

TripFindy (B2B & B2C) -- Multi-Brand Global Travel Management Platform

Stack: React 18, Next.js, TypeScript, Redux Toolkit, Material UI v5, REST APIs | Live: b2b.tripfindy.com

- Architected multi-tenant theming engine switching color palettes, logos, and commission rules with 0ms lag.
- Normalized flight search state tree in Redux Toolkit, ensuring smooth scrolling across hundreds of itineraries.

Ticket Lagbe -- High-Throughput Travel Agency B2B Booking Engine

Stack: React.js, Material UI v5, Redux Toolkit, REST APIs | Live: ticketlagbe.com

- Built streamlined agent booking flows, wallet balance tracking, and instant airline PNR retrieval.

Hotel Lagbe -- B2B & B2C Hotel Reservation & Room Allocation Engine

Stack: React 18, TypeScript, Material UI v5, Redux Toolkit, Date-fns | Live: hotellagbe.com

- Developed faceted hotel search, dynamic room pricing calendar, and client-side voucher issuance.

KEY PRODUCTION PLATFORMS (CONTINUED)

GotiMail -- Enterprise Email Workspace & Transactional API Infrastructure

Stack: React 18, Next.js App Router, TypeScript, Redux Toolkit, Amazon SES API, WebSockets | Live: gotimail.com

- Built automated DNS verification wizard, bulk campaign drag-and-drop builder, and transactional SMTP relay console.
- Engineered Web Worker CSV file processor validating and scrubbing 100,000+ subscriber lists with zero UI lag.

GotiSMS -- Enterprise CPaaS Bulk SMS Gateway & OTP Infrastructure

Stack: React.js, TypeScript, Material UI v5, Redux Toolkit, bKash Gateway, Socket.io | Live: gotisms.com

- Developed carrier-grade masking composer with dynamic GSM-7/UCS-2 Unicode byte analysis and sub-second OTP routing.
- Built developer API playground with interactive code generation, IP allowlisting, and exportable DLR reports.

Safety GPS Tracker -- Real-Time IoT Fleet Telematics Platform

Stack: React 18, TypeScript, Leaflet / Mapbox GL, Material UI v5, WebSockets | Live: safetygpstracker.com.bd

- Constructed interactive live satellite map tracking vehicles with sub-5 second GPS coordinate streams and remote engine kill.
- Built trip history route replay scrubber, polygon geofence breach triggers, and fleet diagnostic telemetry.

AuditNext -- Digital Compliance Management & Corporate Regulatory Audit Platform

Stack: React 18, Next.js, TypeScript, Material UI v5, Formik, Yup, REST APIs | Live: auditnext.com.bd

- Engineered clause-by-clause ISO certification compliance matrix, document evidence vault, and milestone audit tracker.

Aero Bangladesh & Impressive Group -- Corporate Aviation & Enterprise Tech Portal

Stack: React 18, Next.js App Router, TypeScript, Framer Motion, CSS Variables | Live: aero.com.bd & impressivebd.com

- Delivered luxury aviation charter quotation engine and multi-sector corporate conglomerate digital discovery portal.

EDUCATION

Bachelor of Science in Computer Science & Engineering (B.Sc. in CSE)

Daffodil International University, Dhaka, Bangladesh -- 2017 to 2021

Core Studies: Data Structures, Algorithms, Software Engineering, Database Systems, Computer Networks.

AVAILABILITY & WORK PREFERENCES

- Location: Dhaka, Bangladesh (UTC+6)
- Availability: Full-Time Senior / Lead Frontend & Full-Stack roles (Worldwide Remote, Hybrid, or Contract)
- Languages: English (Professional Working Proficiency), Bengali (Native)
- Portfolio & Code: https://uzzal.dev | GitHub: https://github.com/uzzal70 | LinkedIn: https://linkedin.com/in/uzzal70
